C O R O N A

La collezione CORONA è l'espressione della straordinaria duttilità del vetro nelle sue infinite sfumature di colore, unita all' arte millenaria dei maestri Muranesi che creano oggetti unici di altissimo valore artistico. La trasparenza del vetro impreziosita da decori in oro zecchino unita ad elementi in metallo dorato e cromato libera la fantasia per dare nuove espressioni che si materializzano in oggetti duraturi nel tempo.

The CORONA collection perfectly represents the extraordinary versatility of glass with all its endless nuances of colour, combined with the long-lasting art of the Murano master glassmakers, who create unique objects with a very high artistic value. The transparency of glass is rendered more precious with pure gold decorations, and is matched with gold- and chromium-plated metal element, thus giving free rein to imagination and originating new expressions which materialize in objects that are destined to last forever.

Die Kollektion CORONA ist Ausdruck der außerordentlichen Anpassungsfähigkeit des Werkstoffes Glas, mit seinen unendlich zahlreichen Farbnuancen, die in der tausendjährigen Kunst der Muraner Glasbläsermeister ihren Ausdruck finden, die einzigartige Objekte von höchstem künstlerischen Wert schaffen. Die Transparenz des Glases, noch kostbarer durch Dekorationen in hochkarätigem Gold und mit Elementen aus vergoldetem und verchromtem Metall, beflügelt die Phantasie zur Schöpfung neuer Ausdrucksformen, die sich in Objekten von zeitlosem Bestand zeigen.

V E L A

Il cerchio e il quadrato, due forme perfette unite in un gioco di incroci in un oggetto luminoso, valorizzate da un vetro di Murano colato in piastra che ricorda la VELA gonfiata dal vento. La particolare lavorazione della piastra di vetro a sottilissima graniglia, dà alla luce una grande diffusione e una straordinaria brillantezza. La parte metallica è in cromo lucido se abbinata al vetro trasparente, in oro opaco con il vetro ambra.

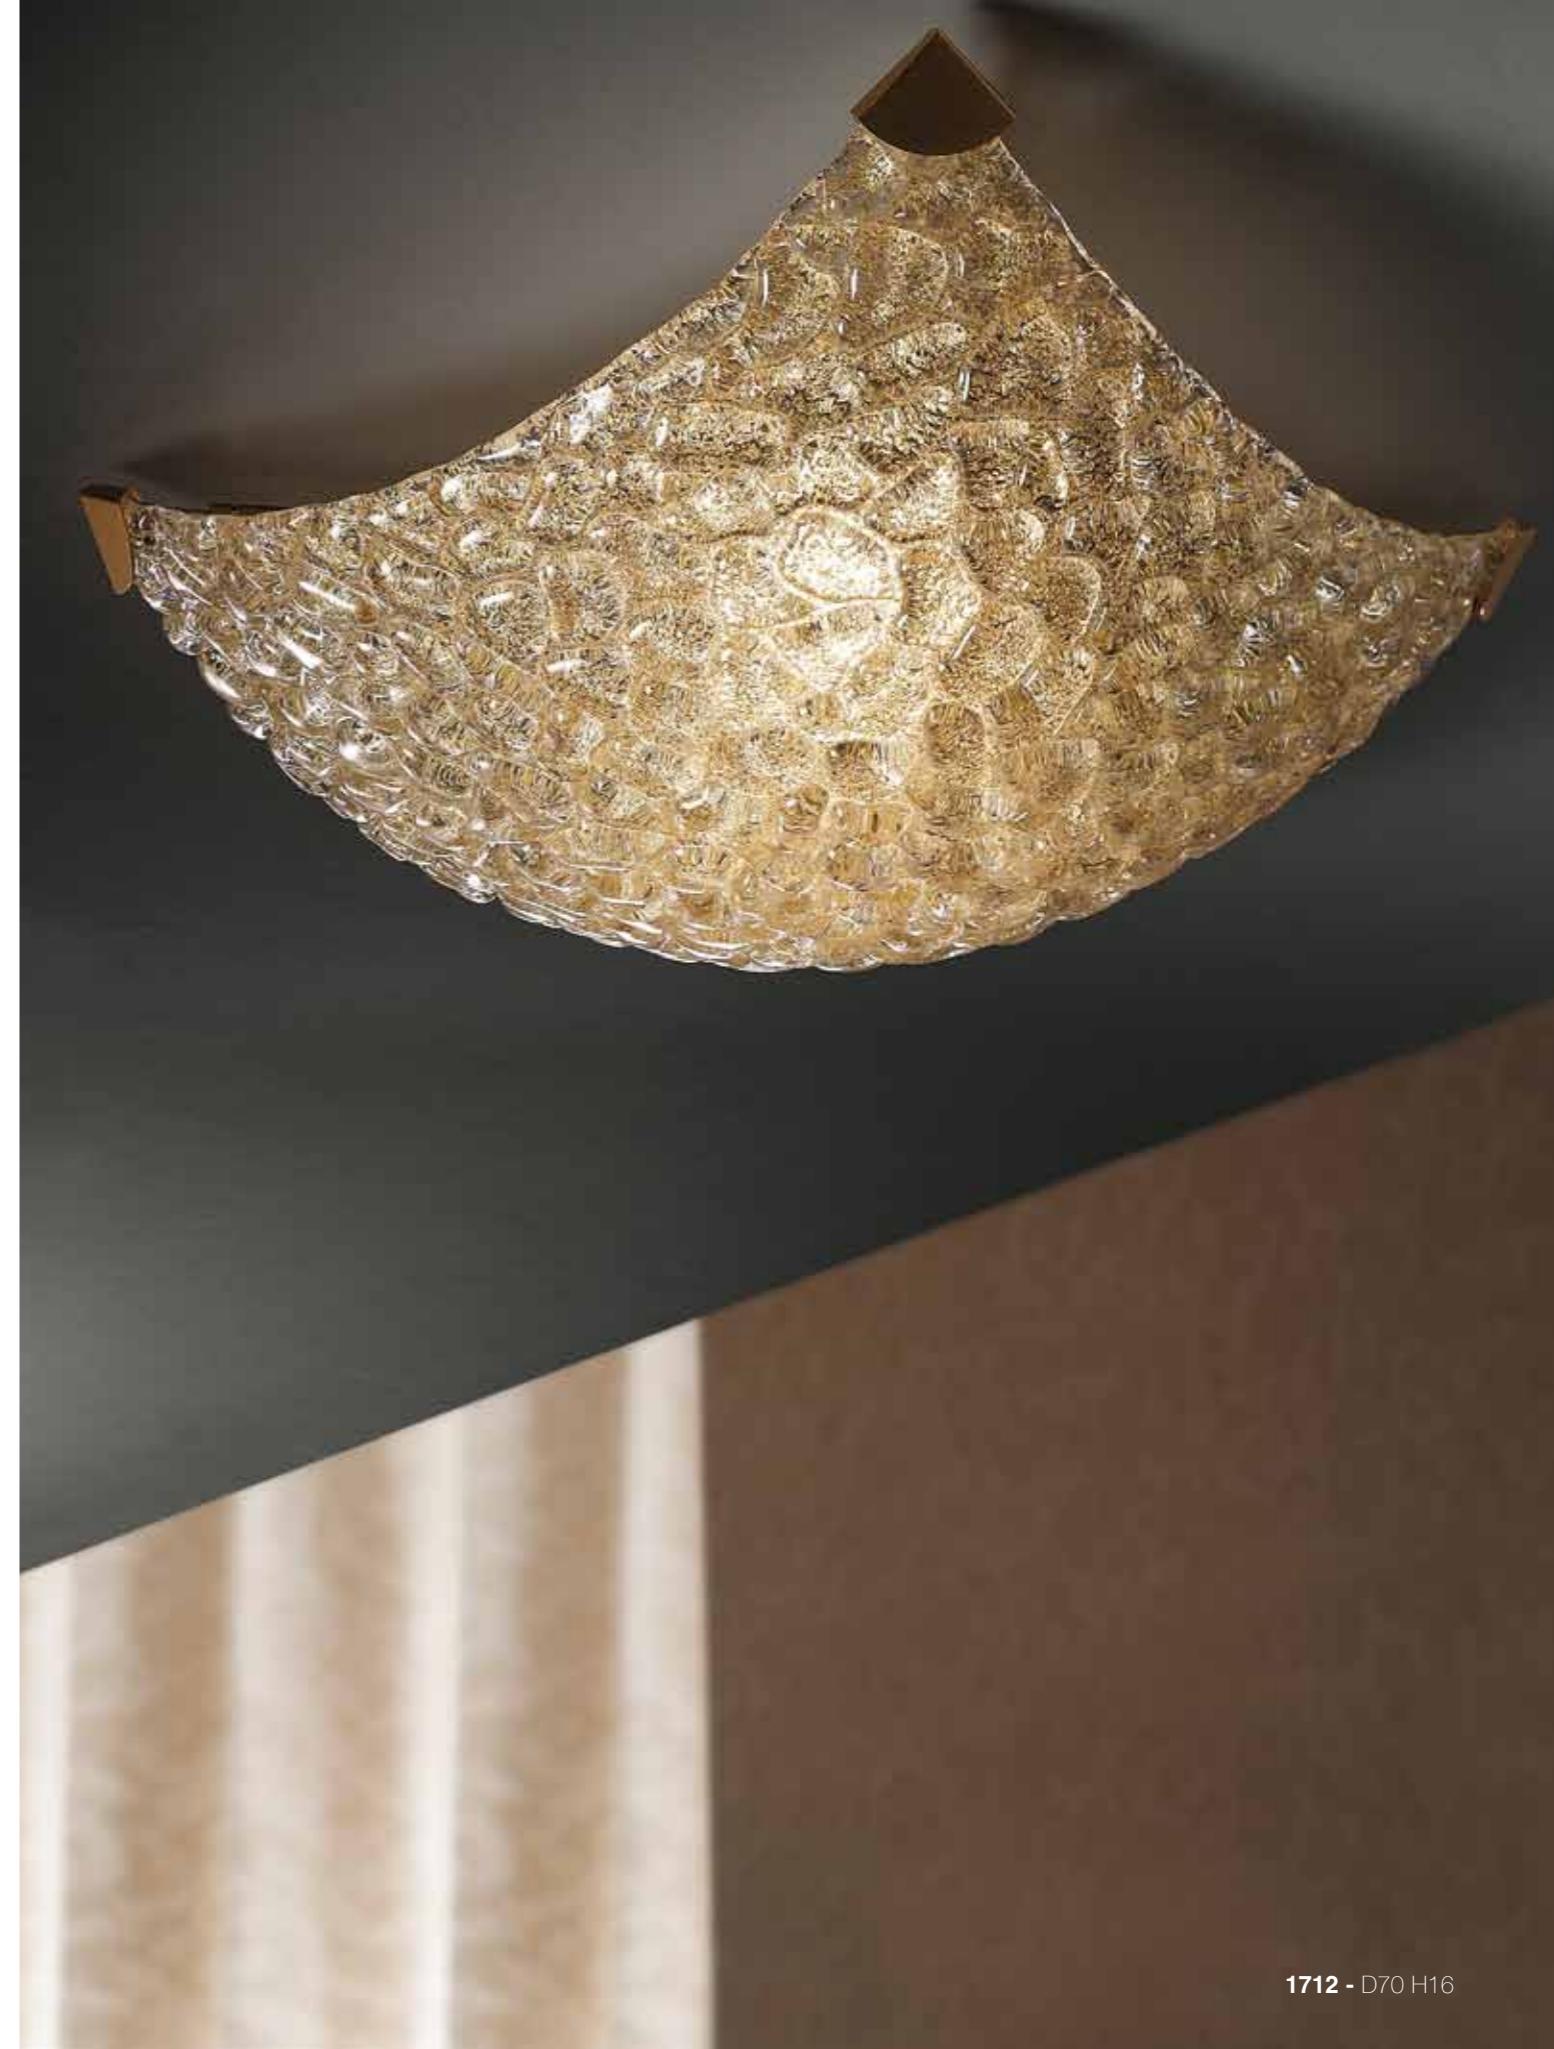

The ring and the square, two perfect shapes, are combined in a game of intersections in these light objects, and their value is increased by Murano glass cast into a plate that recalls a SAIL (VELA) blown up by the wind. The peculiar fine grit-like manufacturing of the glass plate gives the light wide diffusion and extraordinary brilliancy. The metal section is either in polished chrome when matched with transparent glass, or in matt gold if matched with amber glass.

Der Kreis und das Quadrat, zwei perfekte Formen, die in einem Spiel aus Überlagerungen einem Leuchtoobjekt verschmolzen sind. Ihr Wert wird noch vom Muraner Glas unterstrichen, das zu einer fein gekörnten Glasplatte gegossen wurde, was dem Licht eine große Streufläche und außergewöhnliche Leuchtkraft gibt. Der Metallteil besteht in der Version mit transparentem Glas aus glattem Chrom, in der Version mit bernsteinfarbenem Glas ist er in mattem Gold gehalten.

MURANO GLASS

La collezione MURANO GLASS propone una serie di plafoniere ed appliques in piastra di vetro modellata a mano, impreziosita da un trattamento di rugiada: piccola graniglia di vetro fusa nella parte interna. Colpita dalla luce crea un particolare effetto luminoso. La fascia esterna "morrisa" in trasparente con foglia oro zecchino impreziosisce ulteriormente questi splendidi oggetti.

The MURANO GLASS collection offers a series of ceiling and wall lamps characterized by a hand-moulded glass plate, which is made even more precious by a dew-drop-like treatment obtained with fine glass grit molten in the inner part. When hit by light, it creates a particular luminous effect. The transparent "morrisa" external band with fine golden foil further enhances the preciousness of these splendid objects.

Die Kollektion MURANO GLASS stellt eine Serie von Wandlampen und Deckenlampen aus Glas vor, welches von Hand geformt und mit einer Bearbeitung "in Tautropfen" verfeinert worden ist: kleine Körner aus geschmolzenem Glas auf der inneren Oberfläche schenken einen besonderen Beleuchtungseffekt. Das äußere, transparente Band "morrisa" mit reinem Blattgold macht diese wunderbaren Objekte noch kostbarer.
