**ABOUT Anemone 70** by Ralph Frickel

Secrets of the reef. With its bold design the Anemone pendant reflects the elegance and grandeur of the French Empire crystal chandeliers, yet with a modern twist inspired by the underwater world. The thickness of the cables increases with the size. The smallest is made of 2mm wire rope, the middle version with 3mm and the largest with 4mm wire rope. The power cable is with a light grey textile cover.

## ABOUT Match 4 by Jos Muller

The size of a small matchbox is enough to produce light. The multiple version is mesmerising as each element turns and finds its own way. The Match has a coloured or transparent detail. Due to the hole in the middle the colour of the light is not affected. Please specify the desired colour(s) with your order. (red, orange, yellow, green, light blue, transparent) For the round version see model Can

## ABOUT Orion 170 by Jan Pauwels

The first fixture of Jan Pauwels where he scaled down the tiny E10 light bulbs to an even smaller LED printed circuit board. This asymmetrical light is named after one of the most notorious constellations. The effect is marvellous, with its asymmetric architectural structure. The mini circuit boards have only one led downwards\_.

# ABOUT Pollux

by Jan Pauwels

Pollux looks structured but still harmonious. Modular placed LED circuit boards and tiny metal rods are the only two basic elements of this light fixture. They give the lamp its structure and shape. The shape is totally irregular and asymmetrical. The circuit boards have leds on both sides. 2/3 of the light is going downwards and 1/3 is going upwards.

## ABOUT Sparks System by Daniel Becker

Inspired by a sparkling fire, the designer created a modular lighting system consisting of three different modules with the ability to arrange various configurations to form a three-dimensional structure. The installation solutions are endless and fit in every architectural situation. Every module can be rotated freely in 360°, making the whole system easily adaptable to every possible situation. Assembling is easy due to the prewired modules that can be plugged together. Our team is available to help you with planning and designing it to suit your individual needs.
